## SUMMARY

With over 4 years of experience in the mobile industry mainly in Flutter, I have developed a variety of applications, including e-commerce platforms, employee support portals, and order management systems. I possess strong expertise in Flutter/Dart and iOS (Swift).

---

## KEY COMPETENCIES

Flutter/Dart	Bloc	Agile (Jira & Azure)
iOS (Swift)	Riverpod/Provider	Postman
REST/GraphQL	Unit/Widget Testing	Firebase

---

## PROFESSIONAL EXPERIENCE

### Mobiuso Technologies

Aug 2023 - Present

#### Software engineer

- Started as a Flutter Developer before transitioning into iOS native development with Swift.
- Consistently met project deadlines by effectively managing time and prioritizing tasks according to importance.
- Collaborated closely with QA teams to identify bugs during testing phases and resolved them swiftly.

### Adevole/Vervali Systems

Feb 2021 - July 2023

#### Flutter Developer

- Collaborated with cross-functional teams to ensure seamless integration of new features.
  - Adapted quickly to new technologies and programming languages, enhancing overall team productivity.
  - Worked closely with clients to gather requirements and translate them into technical specifications for implementation.
  - Mentored junior developers, fostering a collaborative learning environment and supporting professional growth.
- 

## PROJECTS

### Nutrabay (1 million+ downloads)

- Protein powder ordering app (E-commerce) using webviews and native payment gateways.
- Integrated Google Analytics and CleverTap.
- Navite Login screens with bridges to web.
- [Play Store](#) - [App Store](#)

### Enstore

- Enstore was a Order/Inventory management app with POS alongside.
- Collaborated with a team of 9 developers and 3 QA engineers, utilizing Jira for project management.
- Contributed to the development of key features, including Training and Introduction, Inventory Categorization, and Search/Filters functionality.

### **Starry (Bluestar)**

- Starry is an employee service portal made in iOS native (Swift), which serves as a Chatbot.
- I have integrated 2 major feature on this app i.e. IJP and USB Exceptions.
- Worked closely with the backend team to ensure seamless integration and functionality of these features, delivering the project within the expected timeframe.
- [Play Store](#)

### **Hyperlocal**

- Developed three apps for the Hyperlocal food ordering project: User, Merchant, and Delivery Partner.
- Enhanced the User app's checkout functionality, optimizing user flow and implementing one-click payment options, resulting in a 30% reduction in cart abandonment and a 20% increase in completed purchases.
- Received significant appreciation for independently creating the Merchant app without any UI/UX designs.

---

## **EDUCATION**

### **Bachelor of Commerce**

Majors: Banking and Insurance.

Kandivali Education Society (Mumbai University).

## **EXTRACURRICULAR ACTIVITIES**

### **Vice President, Banka**

Kandivali Education Society.

### **Hobby**

Chess
