SUMMARY

Mobile Engineer with **6+ years of experience** building Flutter and iOS (Swift/ObjC) apps used by **millions of users** across e-commerce, enterprise, and ed-tech domains. Experienced in taking features from idea to production, working closely with teams to deliver stable, scalable mobile products.

PROFESSIONAL EXPERIENCE

Software engineer, *Mobiuso Technologies*

08/2023 – Present

- Led development of **iOS (Swift)** features for production apps, migrating components from native iOS to Flutter as needed.
- Delivered features on time through effective prioritization and close collaboration with QA teams.
- Contributed to architecture and implementation decisions to ensure scalable, maintainable mobile solutions.

Senior Flutter Developer, *Vervali Systems*

06/2021 – 07/2023

- **Mentored junior developers**, conducted code reviews, and promoted best practices, improving overall team productivity and code quality.
- Developed and maintained **multiple Flutter applications** across e-commerce, fintech, and enterprise domains.
- Worked directly with clients to gather requirements and translate business needs into scalable technical solutions.

Flutter Developer, *Adevole*

02/2020 – 05/2021

- Designed and delivered high-quality Flutter UIs for production mobile applications.
- Worked closely with leadership to translate product vision into scalable mobile solutions.
- Built and deployed cross-platform applications to both App Store and Play Store.

TECHNICAL SKILLS

Languages & Frameworks – Dart, Flutter, Swift, ObjC, SwiftUI, UIKit

State Management – Bloc, Riverpod, Provider

Tools & Platforms – Firebase, Postman, Jira, Azure, Supabase, StoreBird,

IDE – Xcode, Android Studio, VS code, Antigravity, Cursor

PROJECTS

Nutrabay 📄, (1M+ Downloads | Flutter)

- Built and maintained a high-scale e-commerce app for protein and nutrition products.
- Implemented native login flows bridged with web views and integrated payment gateways.
- Integrated **Google Analytics** and **CleverTap** for user behavior tracking and funnel analysis.
- Contributed to a stable, scalable app serving **1M+ users** across platforms.

Gamistaan 📄, (Flutter)

- Developed a Flutter-based mobile application for India's first game rental and subscription platform offering **300+ games**.

- Integrated **WebSockets** for real-time delivery rider location and status tracking, **Razorpay** for payments, and **OneSignal** for push notifications.
- Implemented features enabling users to **rent, buy, or subscribe** to games with doorstep delivery and event-based services.

Skyscape Medical Library , (iOS Native | Swift)

- Developed and enhanced a large-scale medical decision-support mobile application used by **physicians, nurses, and healthcare professionals**.
- Implemented features to support access to **350+ medical resources**, clinical calculators, drug references, and evidence-based clinical content at the point of care.
- Worked closely with backend and product teams to deliver scalable, high-performance solutions.

Starry (Bluestar) , (iOS Native | Swift)

- Developed an iOS native employee service portal with chatbot functionality.
- Implemented key enterprise features including **Internal Job Posting (IJP)** and **USB Exception workflows**.
- Collaborated closely with backend teams to ensure seamless API integration and on-time delivery.

Portfolio , (Antigravity | AI)

- Designed and launched a personal portfolio website using an **AI-driven IDE (Anti-Gravity IDE)**.
- Generated the application **primarily through prompt-based workflows**, with **minimal manual coding**, demonstrating effective use of AI-assisted development tools.
- Leveraged AI to accelerate UI generation, content structuring, and layout decisions, highlighting practical experience with **AI-powered development environments**.

EDUCATION

Bachelor of Commerce, *Kandivali Education Society, Mumbai University*

AI

Software/Tools – GitHub Copilot, Claude Code, Figma MCP, Ollama, Hugging face

LLM – ChatGPT, Claude, Gemini, Qwen, Kimi
